MarineSense — Mumbai Port Advisory Report

Temperature: 29.00 °C

Wave Height: 1.52 m

Wind Speed: 15.30 km/h

Sea Level: 0.27 m

Salinity: 33.60 PSU

Current Velocity: 0.04 m/s

Current Direction: 339.9°

Risk Score: 20

Generated: 2026-08-21 06:32:04.611187 UTC

Recommendations

• Increase monitoring of ocean current velocity near coastal biodiversity zones.

• Restrict small vessel operations during high wave activity.

• Continue sea-level surveillance for Mumbai coastal infrastructure.

• Track thermal stress for marine ecosystem conservation.
